Vaccine Schedule

A simple guide to the shots most pets need, and when.

Vaccines teach your pet's body to fight off serious illness before it ever meets it. Young animals get a short series of shots a few weeks apart, then boosters keep that protection strong. **Core** vaccines are recommended for every pet. **Lifestyle** vaccines depend on where your pet goes and who it meets.

Dogs

Vaccine	Protects against	When	Type
Rabies	Rabies, a fatal virus that can spread to people	First shot at 12-16 weeks, then every 1-3 years	Core (required by law)
DHPP	Distemper, hepatitis, parvovirus and parainfluenza	Series at 6-16 weeks, booster at 1 year, then every 3 years	Core
Bordetella	Kennel cough	Every year	Needed for boarding, daycare and grooming
Leptospirosis	A bacteria found in puddles and wildlife	Every year	Lifestyle
Lyme	Lyme disease spread by ticks	Every year	Lifestyle

Puppy timeline at a glance

Age	Visit
6-8 weeks	First exam, DHPP #1, deworming
10-12 weeks	DHPP #2, Leptospirosis #1, Bordetella
14-16 weeks	DHPP #3, Rabies, Leptospirosis #2, Lyme if needed
1 year	DHPP and Rabies boosters, yearly check-up

Vaccine Schedule

Cats and rabbits

Cats

Vaccine	Protects against	When	Type
Rabies	Rabies, a fatal virus that can spread to people	First shot at 12-16 weeks, then every 1-3 years	Core (required by law)
FVRCP	Feline herpes, calicivirus and panleukopenia	Series at 6-16 weeks, booster at 1 year, then every 3 years	Core
FeLV	Feline leukemia virus	Series for kittens; yearly for cats who go outdoors	For kittens and outdoor cats

Rabbits

Vaccine	Protects against	When	Type
RHDV2	Rabbit hemorrhagic disease, a fast-spreading virus	Every year	Recommended for all rabbits

Good to know

- Mild tiredness or a sore spot for a day is normal after a shot.
- Call us right away if you see face swelling, hives, vomiting or trouble breathing.
- Bring your pet's old vaccine records to the first visit so we do not repeat shots.
- Birds and reptiles do not usually need vaccines, but they do need a yearly wellness exam.

Your vet will tailor this plan to your pet.
